

“For What It’s Worth”™

Still Got Your Money in the Stock Market?

As mentioned in a previous newsletter, clients like to ask me what car to buy. I always tell them to buy the one that's going to make them happy. They will smile, nod and then ask me what cars will make a good investment. It's really hard to predict the future but there are specific attributes that generally indicate a car's potential to increase in value in the future. Here are some more of my picks for cars with good potential to see a reasonable increase:

- 1953 Plymouth Cranbrook Convertible
- 1970 Plymouth Road Runner Coupe 440 Six Pack
- 1957 Pontiac Bonneville Convertible
- 1957 Pontiac Star Chief Convertible
- 1969 Pontiac Firebird Ram Air 400 Convertible
- 1980 Pontiac Firebird Trans Am Coupe
- 1969 Porsche 911S Coupe or Targa
- 1991 Porsche 944 S2 Coupe
- 2005 Porsche 911 Turbo S Coupe
- 2010 Porsche 911 Carrera Coupe or Convertible

We all know that the easiest way to make money buying and selling cars is to buy low and sell high, right? And of course condition matters, correctness and originality matters, history matters, documentation matters, location matters.

The **Auto Appraisal Group** provides **independent prepurchase inspection services** to assist with your buying needs. Whether you're buying for love or money, AAG can help. Watch for more of my picks next month. As always, happy motoring and stay safe.

~ ~Larry Batton, AAG Founder

Make Money Doing What You Love

AAG is offering a **certification class** in **Hershey Pennsylvania** on **September 19-22**. There is still room for candidates in this class but the registration deadline is fast approaching. "We are always pleased with the quality of candidates who have attended classes held in the **AACA Museum's** home town. The museum offers a great venue for hands-on demonstrations with new agents", says John Delaney, AAG's Certified Trainer.

AAG Agency Benefits include setting your own hours, low overhead costs and on-going business support as you provide a professional service to local collectors. With over 20 years of experience, AAG has the expertise and client base to help you build a successful business in your local community.

AGENT TESTIMONIAL: "I made back my investment within the first 6 months." Chuck LoMagro PA

Earthquakes and Derechos

We think it won't happen to us.

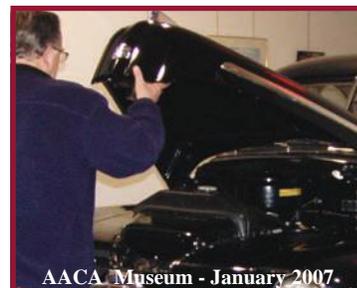

When a Derecho moved through Virginia just prior to the 2012 July 4th holiday, millions were affected by fallen trees, branches, flash flooding and were then left in 100+ degree weather with no power for days. In August of 2011 the most powerful earthquake in Virginia's history shook the AAG home office and left surrounding areas with billions of dollars in repairs.

Be Ready for the Unexpected.

We can never really plan for disasters such as these but we can be prepared. Err on the side of caution when it comes to storage of your collector cars or special interest vehicles. From hurricane straps and solid doors when constructing your garage to not storing loose tools and items next to or over your vehicle, thinking ahead can save you heartache and money if you have an event.

If you need to file a claim with your insurance company,

begin by taking photos of the damage before you clean it up. Remove broken glass and cover any holes in the structure to prevent further damage by water. Have a recent **AAG certified appraisal** on hand to help document your vehicle's condition and value prior to the loss.

AACA Museum - January 2007.
